

Hearing & Seeing - Joint Curriculum of the Institute for Ophthalmic Research and the Tübingen Hearing Research Centre

Progress in Neuroscience Research of the Retina and the Inner Ear - Progress Reports

- When?** 1x per month on Thursday, 16:00 – 17:30
Where? Lecture hall of the University Eye Hospital, Schleichstrasse 12 (see map)
Language English

At each date two progress reports will be presented – one by a scientist of the Institute for Ophthalmic Research, the other by a scientist of the Tübingen Hearing Research Centre (THRC).

Date	Lecturers	Department / Section
22.04.2010	Nicole Weisschuh	Centre for Ophthalmology, Molecular Genetic Laboratory
	Juliane Dettling	THRC, Molecular Neurobiology
27.05.2010	Blanca Arango-Gonzales	Centre for Ophthalmology, Experimental Ophthalmology
	Andreas Breß	THRC, Molecular Genetics
17.06.2010	Tanja Grau	Centre for Ophthalmology, Molecular Genetic Laboratory
	Csaba Harasztosi	THRC, Section of Physiological Acoustics
22.07.2010	Dominik Fischer	Centre for Ophthalmology, Section of Ocular Neurodegeneration
	Jörg Waldhaus	THRC, Regenerative Biology
30.09.2010	Arne Ohlendorf	Centre for Ophthalmology, Section of Neurobiology of the Eye
	Magdalena Zak	Human Genetics, Division of Molecular Genetics
28.10.2010	Daniel Rathbun	CIN, Institute for Ophthalmic Research
	Heinz Arnold	THRC, Regenerative Biology
25.11.2010	Le Chang	CIN, Ophthalmic Research Group
	Hazem Kaheel	THRC, Molecular Genetics
16.12.2010	Hartwig Seitter	CIN, Retinal Circuits and Optogenetics
	Hartmut Hahn	THRC, Inner Ear Pharmacology

Progress Reports - where?

University Eye Hospital, Schleichstrasse 12, 72076 Tuebingen, lecture hall

Lecture "Sensory Systems – Basics and Principles II"

When? On Monday, 16:00 – 18:00

Where? Lecture hall of the ENT-Clinic (HNO-Klinik), Elfriede-Aulhorn-Strasse 5 (see map)
